Profile

A recent graduate of Concordia's Full Stack Web Development Bootcamp with experience in critical analysis, the creative work process, team leadership, optimizing daily efficiency, and problem solving. Specializing in design, UI/UX, and how to elegantly communicate ideas on the digital market. Looking to contribute my skills and experience to a web development team, to learn and improve new abilities, to grow with my peers, and to make a strong impact.

Experience With

General	Front End	Back End
JavaScript	CSS (SASS)	Node.js
React.js + Redux	Bootstrap	Express
JQuery	SEO	MongoDB
HTML	WordPress	Immer
NPM	Photoshop	
GIT	GIMP	
Excel	Inkscape	

Projects

Dungeons & Dragons Character Generator

A single page application built with React, Node, and Express that instantly generates a character for the popular tabletop game Dungeons and Dragons. Plans to expand features are forthcoming!

Learn MERN

An app made with MongoDB, Express, React, and Node to teach how such apps are built and how they run. Comes with text-based tutorials in the main directory.

Jogging and Martial Arts
Current Affairs and News
Travel

Previous Employment

Line Cook - Hurley's Irish Pub (July 2013 - July 2019)

- An engaging, fast-paced, and demanding job that I started while getting my bachelor's degree at Concordia.
- Was responsible for the organization of the kitchen and staff several days of the week. Conducted service for large groups and high-stress, high-volume nights (especially with events occurring at the nearby Bell Centre).
- Produced primary elements of the menu on a regular basis.

Garde Manger - Chez Queux (June 2015 - January 2016)

- Worked at an award-winning French restaurant in the Old Port with a dedicated, talented, and perfecting team.
- Provided an in-depth understanding of how to make crème brûlée and steak tartare en masse.
